What is this product?

Type

This is an investment fund established as a Company With Variable Capital (SICAV).

Objectives

Investment objective The Investment Objective of the Sub-Fund is to achieve long-term appreciation principally through value investing mainly in the major equity markets. There is no guarantee that the Sub-Fund will achieve its investment objectives.

Investment policies The Sub-Fund will achieve its investment objective by investing most of its assets in securities quoted on major exchanges. These may include investments in equities, fixed income, exchange traded funds, UCITS and other UCIs.

The Investment Manager may use financial derivative instruments for investment purposes and for the purposes of efficient portfolio management. The Sub-Fund may ensure that its total commitment arising from financial derivative instruments does not exceed 100% of its net assets.

The Sub-Fund may also retain amounts in cash or cash equivalents if it is considered appropriate to achieve the investment objective, including, without limitation, during portfolio rebalancing.

Benchmark Hermes is not referenced to any benchmark and does not have any target geographical or industrial sectors.

Redemption and Dealing Shares of the Fund can be bought and sold on Every Business Day. The Cut-Off Time for subscription and redemption applications is 16:00 CET time one Business Day prior to the Subscription/Redemption Day.

Distribution Policy Your shares do not pay income, but instead the Sub-Fund reinvests such income to grow your capital.

Fund Launch The Sub-Fund was launched on 30/11/2003. The share class was launched on 05/11/2011.

Sub-Fund Currency The base currency of the Fund and the reference currency of this class is EUR.

Switching between Funds Applications for conversions of Shares of any Share Class into Shares of another Share Class of the same or another Sub-Fund can be submitted for each Conversion Day provided that a complete application is submitted by the Cut-Off Time for that Conversion Day.

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years and are prepared to take on a medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Term

The Fund is open-ended and has no maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The manufacturer, Praude Asset Management Limited, is not entitled to terminate the product unilaterally.

What are the risks and what could I get in return?

Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of the Sub-Fund to pay you.

Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Beside the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the fund prospectus, available free of charge at <https://funds.waystone.com/public>.

Performance scenarios

The figures shown include all the costs of the product itself, and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 31 August 2021 and 31 August 2022.

Moderate: this type of scenario occurred for an investment between 28 February 2014 and 28 February 2019.

Favourable: this type of scenario occurred for an investment between 31 October 2012 and 31 October 2017.

Recommended holding period		5 years	
Example Investment		10,000 EUR	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	3,935 EUR -60.6%	3,448 EUR -19.2%
Unfavourable	What you might get back after costs Average return each year	7,423 EUR -25.8%	9,432 EUR -1.2%
Moderate	What you might get back after costs Average return each year	11,169 EUR 11.7%	17,222 EUR 11.5%
Favourable	What you might get back after costs Average return each year	16,904 EUR 69.0%	24,817 EUR 19.9%

What happens if the Sub-Fund is unable to pay out?

If we are not able to pay you out what we owe you, you are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should we default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	243 EUR	2,212 EUR
Annual cost impact*	2.4%	2.7%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14.2% before costs and 11.5% after costs.
